HOW TO USE

Stay consistent, not perfect.

This 4-week home block is built to be done anywhere, bodyweight, resistance bands, and water bottles. Repeat the four sessions each week as your training block, focusing on the moves that actually make a difference. It’s not about completing the workout, but how you perform it: control each rep, use full range of motion, and stay focused on proper execution.

THE 4 PRINCIPLES

- 1 Train with intention
- 2 Control every rep
- 3 Progress week on week
- 4 Keep your routine consistent

A FEW SIMPLE RULES

- ✓ **Warm up first**activation primes the right muscles.
- ✓ **Progress gradually**add reps, bands, or load over time.
- ✓ **Rest as written**, but adjust if you need to keep intensity high.
- ✓ **Stay hydrated** and fuel your body to recover and grow.

No equipment?

Water bottles, a filled backpack, or household weights all work · resistance bands add tension to glute and shoulder work · a sturdy chair or sofa covers dips and split squats.
